Once upon a time there was a little girl named Sasha. Sasha loved to play outside when the weather was cool. One day her mom gave her an apple as a snack after school. When Sasha was about finished with her apple she noticed it was full of little seeds all over the core of the apple. Sasha asked her mom if they could go outside and plant the apple seeds outside in the garden like they did at her school. Of course her mom loved the idea so out they went to find the perfect spot to plant Sasha's apple seeds. First they dug a little hole for the seeds, then they covered it with dirt and last but not least they watered the seeds. Sasha and her family are now patiently waiting for the apple seeds to bloom into a beautiful Apple tree one day.
